## **WESCO Net Web Services Adds New Hosting Capacity**

**Grand Rapids, Michigan – February 17<sup>th</sup>, 2009**

WESCO Net Web Services, a leader in Web Design and Hosting announces it has expanded capacity to handle the demand of its increasing client base.

To accommodate current and future growth, WESCO Net Web Services recently added a new powerhouse server. This server expands the hosting capabilities of the company for both web and email hosting in preparation for new clients and projects expected to launch in 2009. In addition, several high traffic sites are being redistributed to this new server. The company currently hosts over 70 credit union websites, all CU\*Answers' corporate web properties, and many of the cuasterisk.com partner sites and web applications.

WESCO Net Web Services offers web hosting and email solutions to the Credit Union industry in its state-of-the-art SAS 70 certified data center. Hosting solutions include redundant power, including a diesel generator, tiered stated backups and multiple ISP Internet connections. All hosting packages include email services and website statistic information.

According to David Damstra, Manager of Web Services at WESCO Net, "The new server will allow us to host more sites and host them faster. As more and more institutions turn to web-based solutions to interact with their membership, this was an integral move to keep up with growth in the industry."

### **About WESCO Net**

Organized in 2002, WESCO Net is a full-service network technology solutions provider. They specialize in LAN/WAN design, implementation and management; network security; firewall management; IP telephony VOIP (voice-over-Internet protocol) solutions; records management; managed hosting solutions (facilities management), compliance and security audits (HIPAA/GLBA/SOX); high availability solutions; web site engineering, and hardware sales and support services. WESCO Net provides services to the education, retail, legal, medical, real estate, hospitality, and financial services industries as well as court systems and regional municipalities. Its financial services portfolio includes servicing over 100 credit unions across the country. Visit [www.wesconet.com](http://www.wesconet.com) for more information.
