## **Alpena Alcona Area CU Selects WESCO Net's Complete Care Managed Network Services**

**Grand Rapids, Michigan – September 9<sup>th</sup>, 2009**

WESCO Net, a Grand Rapids, MI-based provider of network technology solutions was selected by Alpena Alcona Area Credit Union (AAACU) to provide network and systems management under their Complete Care program. AAACU provides 26,751 memberships regionally with assets over \$200 million.

With growing membership and assets, Alpena Alcona Area Credit Union sought out a company that could provide flexible network services without compromising security requirements financial institutions must uphold. According to WESCO Net, AAACU selected them for their wide range of secure network solutions and expertise in installation and configuration of any network systems.

AAACU and WESCO Net have worked together for the past few years with WESCO Net providing solutions for secure branch connectivity and managed gateway security. WESCO Net will further help improve the security posture of AAACU by implementing secure centralized data storage, a network-based backup system and further integration of managed network security systems.

"We are looking forward to further building our partnership with Alpena Alcona Area Credit Union," says Matt Sawtell, CISSP. "Over the years, we've had the opportunity to provide AAACU with many solutions that have helped them best serve their membership as well as remain poised for growth. We are excited to move our relationship with them to the next level with the upcoming Complete Care integration."
