WESCO Net Web Services Sites are Mobile-Ready

Grand Rapids, Michigan – September 14th, 2009

WESCO Net Web Services, a leader in web design and hosting, has announced that all its WordPress with SiteControl Sites are now Mobile-Ready.

With **It's Me 247** Mobile Banking soon to be launched, WESCO Net Web Services has raised the level for all its hosted WordPress with SiteControl websites by enabling a special Mobile Enhanced Theme. This special theme automatically detects if the browser visiting the site is coming from a handheld device. If it is, then a special optimized rendering of the site is provided. This mobile theme is lightweight for the limited bandwidth available for the handheld device and is styled to look like a native Apple iPhone application.

This free upgrade was applied to all WordPress with SiteControl sites.

According to David Damstra, Web Services Manager, "Mobile web access is quickly becoming commonplace with Apple's iPhone leading the way. This free upgrade to the WordPress sites was a no-brainer and it really adds value to the Credit Union's website for their member."

About WESCO Net

Organized in 2002, WESCO Net is a full-service network technology solutions provider. They specialize in LAN/WAN design, implementation and management; network security; firewall management; IP telephony VOIP (voice-over-Internet protocol) solutions; records management; managed hosting solutions (facilities management), compliance and security audits (HIPAA/GLBA/SOX); high availability solutions; web site engineering, and hardware sales and support services. WESCO Net provides services to the education, retail, legal, medical, real estate, hospitality, and financial services industries as well as court systems and regional municipalities. Its financial services portfolio includes servicing over 100 credit unions across the country. Visit www.wesconet.com for more information.
