Services Center FCU Selects eDOC Innovations

MIDWAY, UT and MIDDLEBURY, VT – April 20, 2010

eDOC Innovations, a leading e-document management CUSO currently servicing over 400 credit unions nationally, has announced that Services Center Federal Credit Union of Yankton, South Dakota will be utilizing its solutions. The credit union will be replacing its present system, and expanding its edocument strategy by bringing all of its image scanning, automation and Check21 processing into eDOC Innovations' DocLogic suite.

“We are looking forward to a document solution that isn't just a stand alone product, but one that will integrate with our CU*BASE data processing software [provided by CU*Answers]. The seamless integration between the two software products is incredible,” states David Wright, President/CEO of Services Center Credit Union.

“We are highly invested in the success of our peers, and believe in driving value to them in any way possible,” comments Bret Weekes, President/CEO of eDOC. “Our collaborative relationship with CU*Answers within the cuasterisk.com network enables us to provide the leveraging power of a network to our peers,” he continues. “This is especially true for credit unions like Services Center that utilize CU*Answers' CU*BSE core processing platform. In today's financial market it is the innovation and collaboration of credit unions and their CUSOs that helps credit unions make a difference to their members. Services Center FCU has done just that, and we are excited to collaborate with them on their e-document strategy as they move forward in their strategic vision for their credit union.”

About eDOC Innovations, Inc.

Since 1992, eDOC Innovations, Inc. has delivered a comprehensive suite of e-Document strategy solutions, including eSignature automation, workflow and capture, advanced document imaging, check21 and remote deposit check processing and a complete eCommerce consumer document portal for credit unions across the country.
