40 Year Old CUSO on a Roll

Grand Rapids, MI – June 22nd, 2010

CU*Answers, a data processing CUSO located in West Michigan known for providing its enterprise system CU*BASE, recently announced some impressive statistics.

According to the CUSO, in years 2004 through 2010 it has converted an average of over 100,000 members annually, with its all-time high during 2009 with over 135,000 additional members processed by CU*BASE. Just as impressive, in an industry characterized by uncertainty recently, CU*Answers has bucked the yo-yo industry trend and has maintained a level of consistent growth, adding 77 new clients (combination of Online and In-House) since 2004.

CU*Answers continued to say that it attributes recent successes to its unique CUSO ownership model, which allows direct credit union involvement in product development and software enhancement.
