Quest CU Implements Complete Care Solutions

Grand Rapids, Michigan – *July 16th, 2010*
WESCO Net, a provider of full-service network technology solutions, recently announced that Quest Credit Union of Kenton, OH, has implemented Complete Care, its all-inclusive managed services platform.

According to the technology solution provider, the turnkey solutions offered by this package help to equip a growing credit union with productivity and compliance tools necessary to compete in the marketplace.

"WESCO Net's managed network solutions for credit unions covers the entire IT spectrum with a great balance of value, technical expertise and a focus on regulatory compliance," said WESCO Net representative, Matt Sawtell. "The credit union was able to implement internally hosted email, file sharing, real-time managed gateway security and an intranet site in a migration that took only days to fully implement,"
