CU*Answers Tackles Regulatory Changes

Grand Rapids, MI – August 3rd, 2010

CU*Answers, a 100% credit union-owned data processing CUSO, has announced the launch of its newest CU*BASE core processing software upgrade.

Many of the software enhancements were driven by the approaching regulation changes. The CUSO stated it has already implemented statement changes in accordance with Reg. Z as well as adding Opt In/Out features for Reg. E. Not only did CU*Answers have the regulatory changes in place before the deadline, but all software development and implementation was done at no charge to CU*Answers clients.
